

MOTO SILICONE SPRAY

■ Description

Silicone-based cleaning spray, which enhances the sheen on the rubber parts of the motorcycle. Specially designed to cover and protect all rubber, soft plastic and synthetic leather surfaces. It protects them from the sun and rain and restores their original lustre.

■ Properties

- This product can be used directly and provides a shiny protective film on all kinds of surfaces.
- Prevents the entry of dust or moisture thus bringing out the colours of the motorcycle.

■ Hazard Identification

This product is classified as extremely inflammable.

■ Handling

Avoid contact with this product and use respiratory protection if the possibility of gas inhalation exists. Keep away from possible sources of ignition.

■ Health and safety hazards

Inhalation: Inhaling high concentrations of this product may have adverse effects.

Ingestion: Risk of ingestion is minimal as it is a volatile product.

Contact with the skin: Wash thoroughly with soap and water.

Eyes: Wash thoroughly with water.

General measures: Seek medical advice.

■ Fire-extinguishing measures

Do not extinguish the fire until the escape is closed. Move the containers away from the fire if you can do so without risk. Apply cold water to the containers that are exposed to flames until the fire has been extinguished

Fire-extinguishing measures: Foams, dry chemicals, CO₂, water spray. Do not apply the jet of water directly as this could cause the product to disperse.

■ Environmental precautions

Do not allow it to reach watercourses.

Decontamination and cleaning: Cover spills with an absorbent non-combustible material and collect in suitable recipients before eliminating.

A safety information file is available on request.
